

## SUCCESS STORY

### JAZZART BAZAR ART GALLERY IN SUTTON

In an effort to highlight the contemporary artwork displayed in his Sutton art gallery, the administrator opted to install STANDARD's PAR20 LED lamps.

When the new owner of the Jazzart Bazar art gallery situated at 20 G Principale Nord in Sutton, Qc took possession of the building, he felt it was necessary to install a lighting system that would draw attention to the gallery's art collection without damaging it because there's no UV emission.

Now, he is pleased with the results of the choice that STANDARD recommended. Not only do these lamps meet all of his criteria, but their black finish harmonizes with the existing black track lights.

*At STANDARD, we strive to do our very best. We challenge ourselves continually, and we demonstrate the highest level of professionalism through our commitment and unrivaled performance.*
