

## MOTION SENSOR DISK LIGHT Integrated PIR LED Ceiling Luminaire

The LED Motion Sensor Disk Light with integrated PIR sensor offers a practical and cost efficient solution. Mimicking the timeless look of a traditional ceiling luminaire, it will seamlessly fit into any décor. LED Motion Sensor Disk Light is perfect for a range of applications, from a hallway to even a kitchen pantry!

### ■ Walk in, Lights On!

With an embedded PIR sensor, this luminaire not only offers a practical and cost efficient solution, but also allows the end user to control the light in a space, without having to change the wall switch. Never worry about fumbling for the light switch in the dark, this luminaire will turn on automatically when detecting movement!

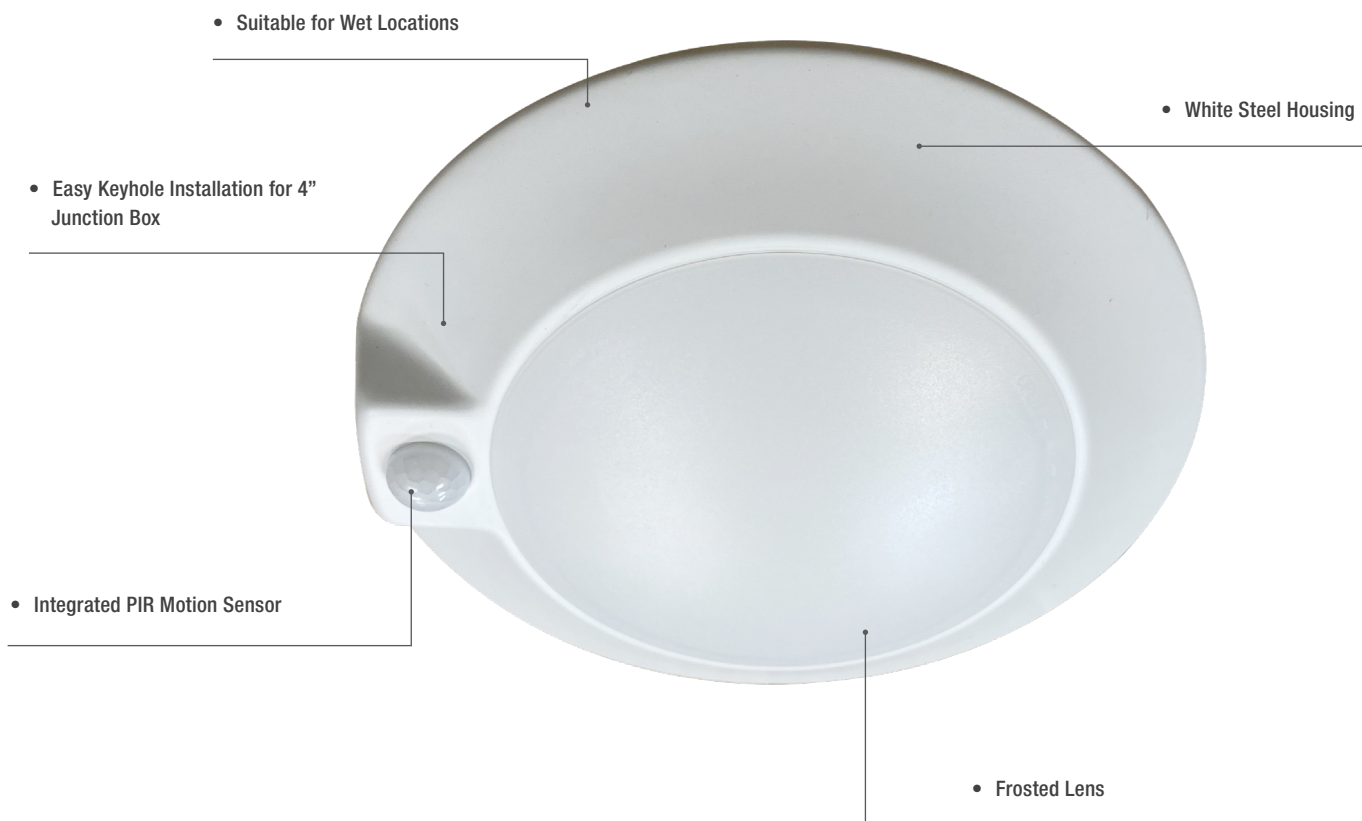

### ■ Easy Installation

Designed with an easy keyhole installation to a junction box, the LED Motion Sensor Disk Light is quick and safe to install. The luminaire allows for years of little to no maintenance and that, with a cost efficient operation.

### ■ Wet Location Rated

With a solid steel construction and wet location rating, the LED Motion Sensor Disk Light is the perfect luminaire for any type of application requiring an integrated motion sensor!

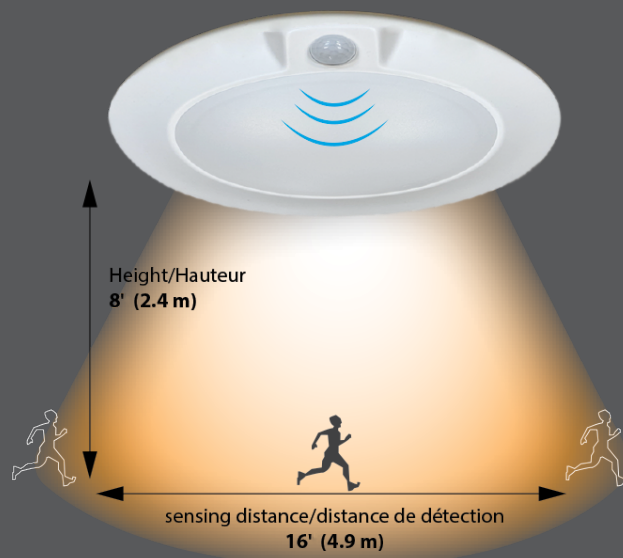

## At a Glance

## PIR MOTION SENSOR FUNCTIONS

The integrated motion sensor allows for an effortless energy-saving solution by turning on when motion is detected and off when there is no motion.

- 16 foot detection range, for 8 foot standard ceiling height
- The motion sensor is always set to ON, with a hold time of 3 minutes
