### ■ Color Selectable

Easily adjust the lighting needs between five distinct color temperatures (2 700/3 000/3 500/4 000/5 000 K) to create the desired ambiance for each application. This feature is the ideal solution for reducing stocking inventory.

### ■ Enhance any space

With a modern and minimalist design, the LINIA LED Wall Sconce series features a rectangular lens that evenly diffuses the light and will seamlessly fit in any residential or commercial decorative application.

### ■ True color accuracy

With its 90+ CRI, the LINIA series offers superior light quality ensuring authentic rich tones. These luminaires will not only bring life to a chosen space with realistic and vibrant colors across the full-color spectrum, but also creates a captivating and comfortable environment as well.
