

## BFL BULLET FLOOD LIGHT

The BFL Series is a flexible flood light designed to adjust luminous flux, color temperature, and beam angle to optimize performance for various applications. It also features a photocell for enhanced energy efficiency. This luminaire is typically used for commercial landscaping applications as well as flood lighting of signs and facades.

### ■ Fully-Featured

This flood light solution offers ultimate versatility with tool-less beam selection (4x4/5x5/6x6) and the ability to change luminous flux and color temperature (3 000/4 000/5 000 K).

### ■ Mounting

Standard knuckle mount with an optional ground spike, available as an accessory.

### ■ Photocell included

An on-off photocell is integrated inside the luminaire and can be easily disabled.
