Genio app

This guide was built with one goal: to make it easy to sell Genio smart lighting. Instead of building layouts from scratch, simply choose from our most common pre-set trims designed to match typical applications and drive faster quotes. Whether for new construction or retrofit projects, we offer IDEAL or ECONOMIC options ready to order, so you can deliver the right solution at any budget. Whether you're new to smart lighting or need a ready-made package on the fly, these combos are here to help.

- Ready for any project. Pre-configured trims designed for the most common commercial spaces—no guesswork, no custom engineering needed.
- Ideal for new construction and retrofits, Genio offers fully wireless, hybrid, and wired solutions made easier.
- Indoor or outdoor use. One versatile system built to handle both environments seamlessly.
- Quick install, faster setup. Fixtures and sensors go live in just a few taps using the Genio App.
- Flexible and adaptable. Easily adjust settings, zones, and schedules as your project evolves—no reprogramming required.
- Scales with your needs. Perfect for a single room or an entire building—grow your system effortlessly.
