

ASTRA

LED Ceiling Luminaire

STANPRO

Edgeless Design. With or Without a Motion Sensor

ASTRA is Stanpro's edgeless LED ceiling luminaire, combining a sleek, modern design with a fully illuminated edge-to-edge lens and no front-face flange. Choose the 5 CCT model in 6", 8", or 11", or in a 6" version with an integrated motion sensor and photocell. One edgeless family, two models to fit the application.

5 YEARS
WARRANTY

5 CCT
SELECTABLE

90+ CRI

WET LOCATION
RATED

IDEAL FOR MULTI-RESIDENTIAL APPLICATIONS:

Well suited for corridors, stairwells, laundry rooms, and entryways, with a motion-sensor option for spaces that benefit from automatic lighting.

ONE FAMILY, TWO MODELS

ASTRA is one family, available as two models:

ASTRA

ASTRA WITH
MOTION SENSOR

GENIO COMPATIBLE

Integrate ASTRA into the Genio system with the Bluetooth® Phase Dimming Controller. For more information on smart accessory compatibility, please see the spec sheet by scanning the QR code.

Feature	ASTRA	ASTRA with Motion Sensor
Sizes	6", 8", 11"	6"
Lumen output	1,044–2,300 lm	872–964 lm
Operation	ELV/Triac (phase-cut) dimming, standard	Integrated PIR motion sensor + photocell, Day/Night mode
Mounting	Surface or suspended (cable kit, sold separately)	Surface mounted

ASTRA WITH MOTION SENSOR: HANDS-FREE OPERATION

The 6" ASTRA with Motion Sensor pairs an integrated PIR sensor with a photocell for hands-free operation, no wall switch required. Daytime mode responds to any motion; Nighttime mode adds a photocell check below 50 lux. The fixture shuts off automatically after 60 seconds of no motion, with 120° detection across 16.4 ft (5 m).

ACCESSORIES (ORDER SEPARATELY)

Matte black and satin nickel clip-on trims are shared across the ASTRA family; the same 6" trim fits both models, with or without the sensor.

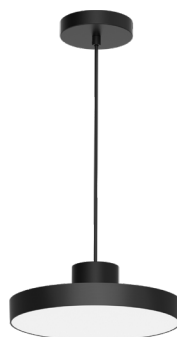

Trim Finish	Sizes	Compatible With
Matte Black	6", 8", 11"	ASTRA and ASTRA with Motion Sensor
Satin Nickel	6", 8", 11"	ASTRA and ASTRA with Motion Sensor

SUSPEND ASTRA FOR ADDED VERSATILITY

ASTRA can be suspended using the 10 ft cable kit, available in white or black. Cable length can be trimmed in the field, so it works well beyond just high-ceiling spaces; the same trims apply whether it's surface-mounted or suspended.

Sold separately; luminaire not included.
