

PRMTA
Where safety speaks the language of design.

STANPRO

HIGH-END ACRYLIC RECESSED EDGE-LIT COMBO

ICES
005

The PRMTA elevates emergency lighting with a clean, fully recessed design and a premium acrylic edge-lit faceplate. Ideal for contemporary interiors, PRMTA delivers both exit signage and emergency illumination in one elegant, low-profile unit.

Designed for reliability, uniform LED brightness, and simplified installations, PRMTA ensures safe egress lighting without compromising aesthetics.

WHY PRMTA STANDS OUT

- Exit Sign + Emergency Lighting in One**
Integrated high-output LED heads that deliver a combined 260 lumens of emergency illumination.
- Bright & Even Acrylic Edge-Lit Illumination**
Ultra-bright LED light source ensures excellent clarity and uniformity across the faceplate.
- Simple, Fast Installations**
Chassis-mounted electronics and a pre-installable backbox streamline on-site work.
- Built to Perform in Demanding Conditions**
120 minutes of emergency backup from a long-life Ni-Cad battery.

INSTALLATION FLEXIBILITY

- Recessed mount for a modern aesthetic.
- Electronics and faceplate mounted on a single chassis.
- Galvanized steel backbox designed for pre-installation.
- Adjustable hanger bars ideal for drywall ceilings or walls.
