The RMTA series delivers a clean, modern edge-lit design with a premium acrylic faceplate that blends seamlessly into high-end interiors. Engineered for universal mounting and effortless installation, RMTA provides unmatched versatility while maintaining a sleek, refined appearance.

Available in AC/DC or self-powered configurations, it ensures safe egress illumination with bright, uniform LED lighting.

WHY RMTA STANDS OUT

- Maximum Installation Flexibility**
Standard universal surface mounting with optional semi-recessed and fully recessed backboxes, plus included hanger bars for drywall.
- Reliable, Bright, Uniform LED Illumination**
Ultra-bright LED light source provides crisp visibility with excellent uniformity.
- Designed for Fast, Simple Installations**
Pre-installable backbox, all components mounted on a single chassis, and universal field-selectable AC input (120–347 V).
- Built for Safety & Performance**
Available with long-life Ni-Cad battery providing 120 minutes emergency illumination (self-powered models).

INSTALLATION FLEXIBILITY

The RMTA is designed around a modular mounting system to make on-site work smoother:

- Surface Mount (Standard)
End, ceiling, or pivoting wall mount.
- Semi-Recessed Conversion kit available separately.
- Fully Recessed Steel backbox with adjustable hanger bars (up to 540 mm).
