fixture

■ Color Selectable

Experience versatile lighting with these 3 & 5 CCT Reflector LED lamps. Providing the ability to not only customize the color temperature for a variety of applications, but they are also an ideal solution for reducing stocking inventory. A single SKU can now replace up to 3 or 5 individual lamps!

■ Customizable Lighting

Enjoy the ability to customize your lighting needs between five distinct color temperatures (three distinct color temperatures for the GU5.3). Whether it be bright and vibrant lighting for optimal productivity or a soft and tranquil setting to create a calm atmosphere for relaxation, the result is a comfortable ambiance that is conducive to the tasks you need to perform. The LED lamps can also be dimmed for additional ambiance and energy savings!

■ Versatile

With multiple reflector shapes to choose from, these 3 & 5 CCT selectable LED lamps are ideal for use in variety of luminaires such track heads, recessed cans, cylinders, flood lights, and much more!

Variety of Color Temperatures

Choose the best color temperature for your application!
